

# Mayank Thakur

mayankthakur9181@gmail.com | +91 90151 56775 | linkedin.com/in/mayankthakur1 | github.com/itzmayank01

## Skills

**Programming Languages:** Python, C++, Java, HTML, CSS, Bash, Shell Scripting

**DevOps & Cloud:** AWS, GCP, Docker, Kubernetes, Helm, Terraform, Ansible, Jenkins, GitHub Actions, ArgoCD, Git,

**Security & Monitoring:** DevSecOps, Trivy, Snyk, SonarQube, New Relic, Prometheus, Grafana, CloudWatch, Container Security

**AWS Services:** EC2, ECS, S3, IAM, VPC, SNS, SQS, Lambda, CloudFront, Route 53, RDS, Security Groups, Elastic Load Balancer, Auto Scaling, CodePipeline, CodeDeploy

**Operating Systems:** Linux

## Experience

### Groove Innovations

May 2026 – Present

*DevOps Engineer Intern*

- Automated security vulnerability detection for Docker images and open-source dependencies using Trivy and Snyk, preventing over 5 critical security incidents.
- Engineered CI/CD pipelines using Docker, AWS, Jenkins, Terraform, and GitHub, reducing deployment failures by 30%.
- Collaborated with 8+ developers to implement DevSecOps best practices, reducing security vulnerabilities by 85% and deployment failures by 30%

### F13 Technologies

Mar 2026 – May 2026

*AWS Cloud Intern*

- Provisioned and managed 10+ AWS resources EC2, S3, IAM, VPC, Security Groups using Terraform, reducing manual infrastructure provisioning time by 60%.
- Developed and maintained CI/CD pipelines with Jenkins and GitHub Actions, reducing deployment time from 30 minutes to under 10 minutes.
- Configured Amazon CloudWatch dashboards, alarms, and log monitoring for 15+ cloud resources, reducing incident detection time by 50%.

### OctaNet Services Pvt Ltd

Jul 2024 – Aug 2024

*Python Developer Intern*

- Constructed data validation scripts using Python, decreasing data entry errors by 40% and improving data integrity for critical business intelligence dashboards.
- Integrated 5+ REST APIs and processed JSON datasets containing 10,000+ records, enabling seamless communication between backend services and third-party applications

## Projects

### Cloud-Native 3-Tier Application on Kubernetes (AWS EKS)

GitHub

*AWS EKS, Docker, Kubernetes, GitHub Actions, SonarQube, Trivy, Checkov, Gitleaks, Amazon ECR, ALB, Route 53, ACM*

- Designed and implemented an end-to-end CI/CD pipeline using GitHub Actions to automate build, security scanning, and deployment to production on every merge to the main branch.
- Reduced CI/CD pipeline execution time from 5 minutes to 2.5 minutes (50% improvement) by introducing self-hosted runners, eliminating cold-start delays, pre-installing dependencies, and avoiding repeated environment setup across jobs.
- Improved pipeline efficiency by parallelizing independent stages such as security scans and linting, reducing total execution time by 30–40% compared to sequential execution.
- Integrated DevSecOps practices using Gitleaks, Checkov, Trivy, and SonarQube to detect vulnerabilities across source code, infrastructure, Dockerfiles, and Kubernetes manifests before deployment

### Campus Connect – Cloud-Based Academic Platform

Live

*AWS S3, Terraform, Docker, Kubernetes, Prometheus, Grafana, PostgreSQL*

- Deployed a cloud-based academic platform supporting 500+ users, improving resource accessibility and system reliability with 99.9% uptime
- Leveraged Terraform to provision and manage cloud resources, cutting infrastructure setup effort by 40% and ensuring reproducible deployments

## Certifications

- AWS Certified Solutions Architect Associate
- Google Cloud Certified Associate Cloud Engineer
- AWS Certified Cloud Practitioner
- AWS Certified AI Practitioner

## Education

**University of Petroleum and Energy Studies (UPES), Dehradun**

Aug 2023 – May 2027

*Bachelor of Technology in Computer Science*
